

The Kyeamba Valley Landcare Group invites you to our TWO PART FIELD DAY!

PART 1: Morning—Lunch Session **Low Cost Erosion Control—“SLOW THE FLOW”**

WHEN: 10am –2.00pm
Tuesday 25th August

WHERE: Chris & Jerry Garner’s
“Silver Springs”
669 Big Springs Road, Wagga

Take Big Springs Road and travel approximately 3kms. Turn right into the Silver Springs private road and continue for 3kms winding up the valley until you reach the woolshed where we’ll be gathering.

RSVP: Friday 21st August
Mardi Pillow
6928 1321/0428 69281
mpillow@bigpond.com

Morning tea and lunch will be provided

Come and join the Kyeamba Valley Landcare Group and Cam Wilson from Earth Integral for the “Slow the Flow” Field Day at Silver Springs. The day will include:

- Shaping and protecting a sizeable active headcut using brush and logs
- Vegetation strategies using pole cuttings to halt active erosion and encourage infill of an existing gully
- Using rock and a loader to halt an active headcut and encourage infill of an existing gully

Please BYO:

- Loppers

- Shovel

- Rubber Mallet

- Mattock

- Crow Bar

PART 2: Afternoon Session

Direct Tree Seeding Demonstration by KVLG Roden Machine & by hand **Inspection of 20-30 year old direct seeded trees**

WHEN: 2.30pm—4.00pm
Tuesday 25th August

WHERE: Dick Green’s (0487 953 777)
“Flakney Springs” 359 Big Springs Rd, Wagga
4kms south from “Silver Springs” entrance

Following our morning session, Francois Retief will be demonstrating the Roden Direct Tree Seeder at Dick Green’s property.

Francois and Dick will explain

- Ground preparation
- how to work out the amount of seeds required for the job
- Which plant varieties work well together and much, much more

The afternoon will also include inspection of regeneration & direct seeding successes over 20-30 years

The tree seeder is available for hire from the Kyeamba Valley Landcare Group
